**Welders & Welding Simulator**

**Addendum 1**  
**July 12, 2018**

**Question 1 – Email received July 10, 2018**

Do you have any specifications or part numbers on the welding simulator? Is there a specific brand?

**Reply 1**

*The only specification for the welding simulator include the ability to do SMAW, FCAW and GTAW.*

**Question 2 – Email received July 11, 2018**

Lines B & D both show TTC-150, giving you two adapters per machine where you only need one, would you like a quote for both lines?

**Reply 2**

*We only need a quote for one line, it was duplicated in error.*
